

FTTH drop clamp, ODWAC-PY

Product information:

FTTH drop clamp ODWAC-PY is designed to tension flat type fiber drop cables or telephone drop wire on dead-end or intermediate routes during FTTH network constructions.

Applications: Outdoor FTTX fiber optic cable deployment

Features:

1. Easy installation, no need other tools
2. Removable and don't hurt cable jacket
3. Full dielectric UV resistant thermoplastic, durable
4. Open clamp loop, can be attached drive hook, pole bracket or other fittings
5. 38 embossing holes on shim which increase the force of friction between cable
6. Excellent environmental stability

Key parts: UV resistant plastic

Technical specification:

Product code	Flat cable size (h×w) mm	Material	MBL,KN
ODWAC-PH	< 4 × <8	UV resistant thermoplastic	0.5
